## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 19 (new) is rejected under 35 U.S.C. 102(b) as being anticipated by Slayton et al (US5103129, of record). Slayton et al teaches all the recited components of a catheter-tip-mounted common footprint cross-array except that it does not specifically state that the acoustic axis is 'linearly arranged with respect to the longitudinal axis of the probe'. However the ordinary meaning of 'linearly arranged' is 'arranged along a line' without further specificity as to the orientation of the line hence all acoustic axes are 'linearly arranged' with respect to lines of reference.

### ***Allowable Subject Matter***

Claims 1-14, 18 and 20 are allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3737

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
